About me

I am Naoki Chihara, a first-year Ph.D. student at The University of Osaka, Japan, and a specially appointed researcher at SANKEN (The Institute of Scientific and Industrial Research at The University of Osaka). My research mainly focuses on data stream mining [C1, C2] and causal discovery in time series [C1]. I am fortunate to be advised by Prof. Yasushi Sakurai and Prof. Yasuko Matsubara at SANKEN. I received my B.Sc. and M.Sc. degrees from The University of Osaka advised by Prof. Makoto Onizuka and Prof. Yasushi Sakurai in March 2023 and 2025, respectively.

Keywords: Time series analysis, Data mining, Stream processing, Causality, Koopman operator theory, Missingness mechanisms, Time series forecasting, Bayesian optimization
