About me

I am Naoki Chihara, a second-year M.Sc. student at Osaka University, Japan, and a specially appointed researcher at SANKEN (The Institute of Scientific and Industrial Research at Osaka University). My research mainly focuses on data stream mining [C1, C2] and causal discovery in time series [C1]. I am fortunate to be advised by [Prof. Yasushi Sakurai](#) and [Prof. Yasuko Matsubara](#) at SANKEN. I received my B.Sc. and M.Sc. degrees from Osaka University advised by [Prof. Makoto Onizuka](#) and [Prof. Yasushi Sakurai](#) in March 2023 and 2025, respectively.

Research interests: [Time series analysis](#), Data mining, [Stream processing](#), [Causality](#), Koopman operator theory, Missingness mechanisms, Time series forecasting
